GARCELO The Falsity of His Recent Address Exposed.

THE EX-GOVERNOR'S MEMORY AP-PARENTLY VERY TREACHEROUS.

Augusta, Feb. 28.-In ex-Gov. Garcelon's address to the people of Maine, recently published by him, he stated that the expense of protecting the property and inctitutions of the State was not authorized by him; that he is in no way responsible for it, and that all expense incurred by his orders has been paid except about \$300 now in his hands to be paid out on call, though he does not state by what law he as executive of the State of Maine be comes paymaster. The facts are these:

Jan. 5, 1880, Gov. Garcelon issued his famous order to Gen. Chamberlain, ordering him to protect the property and institutions of the State until Gov. Garcelon's legal successor was chosen. This order gave Gen. Chamberlain full power to employ all the civil and m ilitary force that might in his judgment be necessary. Under this authority Gen. Chamberlain assumed command and held the State in his control until the evening of the 17th of January when Gov. Davis was inaugurated as Garcelon's legal successor. During all this time the militia and a very large police force, together with the sheriff of Kennebec county and all his deputies, were under Gen. Chamberlain's immediate command, so that all the expense that accrued by the employment of the force of all kinds by Gen. Chomberlain, between Jan 5 and 17, was authorized by Garcelon. Gov. Garcelon also gave separate instructions to Mayor Nash and Sheriff Libby. On the morning of Jan. 7, he sent the follow ing letter to Mayor Nash:

Sir,—I desire to see you at as early an hour as you can grant me for the purpose of conferring with you on matters of public safety. I shall be at the State House after 8.30 a. m., and at my room at the Augusta House prothereto.

(Signed,) In response to this letter Mayor Nash went at once to Gov. Garcelon's room at the State House. Gov. Garcelon desired the Mayor to assume the responsibility of keeping the peace. Mayor Nash went immediately to Marshal White and directed him to put part of the Augusta police force into the State House, which the Marshal did without delay. Jan. 6, Gov. Garcelon gave Sheriff Libby written instructions to quell any riot or disturbance against the peace of the State that might arise in Augusta, calling his special attention to chapter 123 of the Revised Statutes. Under this order Sheriff Libby summoned his twelve deputies to the capitol and continued to act till his services were dispensed with when quiet was restored in the latter part of January. In addition to the forces of Mayor Nash, Sheriff Libby and Gen. Chamberlain, all acting directly under Gov. Garcelon, there were, on Jan. 7th, 140 men in the State House under command of Capt. Black, enlisted under Gov. Garcelon's orders, which seemed to indicate that the Governor anticipated danger of trouble. Having directed the enlistment of Black's company which cost the State several thousand dollars, and having directed Gen. Chamberlain to protect the property and institutions of the State, which he found Black's company could not do, he now denies all responsibility for the expense incurred thereby though his orders to Chamberlain, Nash and Libby remain on file and every dollar of the expense up to the evening of the 17th of January was incurred directly under them.

Augusta, Feb. 28 .- E. F. Pillsbury, of the Maine Standard, has brought a libel suit against Sprague & Son, of the Kennebec Journal, for an arttcle published in the latter paper some four or five weeks since. The charge is made for defamation of character and injury to Pillsbury's business. The damages are placed at \$20,000, returnable to the April term

of the Superior Court of this county. In the article on which the suit is based, the Journal called Pillsbury a scoundrel, and said if he had his deserts he would be looking through prison gates on account of his connection with the great counting out frauds. It also called him a vile whelp, a disgrace to the bar, a shame and reproach to the community and a loathsome ulcer upon the body politic.

THE FRAUDULENT COUNT. Testimony of County Attorney Rounds.

EX-COUNCILLOR FOGG'S PROFANE Augusta, Feb. 98 -C. B. Rounds of Calais who,during the counting out campaign, offered the challenge to Gov. Garcelon and Council to exhibit the returns from Washington county,

was before Hale's committee today.

He is the "counted out" county attorney of Washington county. He said that early after the election it was reported that he had received 297 majority for the office. Some ten days after there were rumors that he was to be counted out on defective returns. The Cherryfield return was cited. He came to Augusta about the first of December with counsel for the purpose of examining the returns for Washington county. He was told that where there were defects they would be counted against the Republicans. He came with certified copies of the record of the count. The Governor and Council refused to give him access to the returns, and informed him that the charges he had made were groundless and insulting. He had charged that there had been substitution of returns, and the Governor and Council denied this. On one occasion, in his vain attempt to obtain a hearing, he was met at the door of the Council chamber by Councillor Fogg, who said to him, "G-d d-n you Rounds, we will count you out if we don't any

THE INDIANS.

Proposed Legislation for the Elevation of the Indians-The Pencas and their Removal to Indian Territory.

Washington, Feb 29.—The Senate committee on Indian affairs today reached an agreement to prepare and report an original bill designed to cover the entire range of the Indian question by the enactment of a new provion based upon the general principle that the United States should in a great measure abandon the policy of treating the Indians as children and place them as speedily as possible upon the footing of citizens. The main features outlined by the committee are first: Permanent lecalization of Indians by alloting homesteads to them in severalty with the provision that lands so allotted shall be absolutely inalienable during 25 years; second, extension over the Indians of general civil and criminal laws of the United States or of states and territories within whose border they are located; third, continuation of a certain degree of assistance to them by the government in view of their progress toward, civilization until they become self-sustaining by means of agricultural and pastoral occupations.

It is not proposed by the committee to transmoval to Indian Territory.

become self-sustaining by means of agricultural and pastoral occupations.

It is not proposed by the committee to transfer the control of the Indians to the War Department, but the bill largely divests the Interior Department of discretionary power in regard to the Indians by placing them individually under the control of the country's general
laws. The provisions of the bill are not to
apply to the five civilized tribes of Indian
Territory. Its details are yet unfinished and
will be the subject of consideration at future
meetings.

meetings.

Col. Brooks, acting commissioner of Indian affairs, was before the committee today and furnished specific information as to the present condition and progress in civilization of each tribe of Indians in the United States except the civilized Indians of Indian Territory. He was specially examined as to the adaptability to agricultual uses of lands now occupied by each tribe and it was ascertained that all the tribes except two—the Utes and Lemhis—are in reservations capable of supporting them by means of agriculture and stock raising.

The special Senate committee on removal of the Poncas, took testimony today from Edward Miller, an Omaha employed as blacksmith on the Ponca reservation at the time of their removal, and from John Springer, another Omaha, who narrated through an interpreter his conversation at the Omahas' reservation with a Ponca chief on their fugitive return homeward from Indian Territory.

The inquiries of the committee for the past few days have been directed toward the ascertainment of bottom facts in regard to the document purporting to be an application of the Ponca for removal to Indian Territory which

tainment of bottom facts in regard to the document purporting to be an application of the Ponca for removal to Indian Territory which was forwarded to the Indian Department in 1875. The Ponca witnesses have unanimously testified they never signed any such document and that the tribe never proposed to remove there, and that no such proposition ever was made to them until an officer came and forcibly removed them.

Tibbles informed the committee that Morgan, who interpreted to the Poncas the document which they did sign on that occasion referred to, repeatedly told him and had published an article stating that ne never interpreted to them any document asking their removal to Indian Territory. This made the document on file at the Indian bureau look very much like forgery, but Bright Eyes a day or two ago made a statement to the committee which seems to shed new light upon this document. He said that the Poncas knowing nothing of the white men's geography were at the time of signing that document utterly ignorant of the location or even existence of Indian Territory; that neither he nor the Poncas had any word in their language corresponding to the word territory and could only speak of it in their language as the Indian country or reservation; that when Morgan asked them as to their willingness to remove to the Indian country or reservation of Indians with whom they had been talking of uniting their fortunes to wit—the Omahas—they therefore, said Bright Eyes, signed the document which they supposed to be a petition for removal to the Omaha reservation, but which really was a petition for removal to Indian Territory. Afterward they made a treaty of peace with the Sioux and reconsidered that action, deciding to remain on their own reservation, and did so until they were forcibly removed.

This statement of Bright Eyes was elicited in the course of comments on testimony given by Major Currier, agent of the Poncas. When

This statement of Bright Eyes was elicited in the course of comments on testimony given by Major Currier, agent of the Poncas. When the paper in question was signed Major Currier testified that the paper was unanimously signed by the Indians and he refused to have anything to do with it unless it was so signed, on the ground that he would on no occasion divide or make trouble in the tribe.

TELEGRAPH WAR.

The Lines of the Atlantic & Pacific Taken by the Baltimore & Ohio Railroad Co. by the Baltimore & Ohio Raliroad Co.

New York, Feb. 29.—The Atlantic & Pacific Telegraph Co., which has had an arrangement as to dividends with the Western Union Co., had prior to such arrangement a compact enabling them (the Atlantic & Pacific) to control the wires along the line of the Baltimore & Ohio railroad. Today, however, the telegraph war assumes a still more complicated nature. The Baltimore & Ohio Co. served a notice of its intention to take centrol of and telegraph war assumes a still more complicated nature. The Baltimore & Ohio Co. served a notice of its intention to take centrol of and operate the telegraph lines of the Atlantic & Pacific and Baltimore & Ohio between Washington, D. C., Marietta and Cincinnati, Washington, Pa., Columbus, O.. Newark, O., and Chicago, heretofore operated by the Atlantic & Pacific under a temporary license. After the notice had been served and the lines all taken by the railroad company, an injunction was served on Pressident Garrett of the Baltimore & Ohio at the Windsor Hotel in this city to restrain his company from taking possession of the lines which were put there by the Atlantic & Pacific Co. in 1876 and 1877 under an arrangement made by Gen. Eckert, then Presdent, and D. H. Bates, then General Superintendent of the Atlantic & Pacific Company. This arrangement, it is alleged, provided that the railroad company, who were at that time afraid of consolidation between the Western Union and the Atlantic & Pacific companies, should at any time have the option of taking the lines at cost. Saturday a contract was concluded between the Baltimore & Ohio Railroad and the American Union Telegraph Company, having ten years to run, whereby all the telegraphic work and business on that railroad shall be managed in connection with the American Union Telegraph Companies. The Baltimore & Ohio lines aggregates 6000 miles and 400 offices. The Baltimore & Ohio have accepted the provision of act of Congress of July 1876, relating to telegraph companies and has also taken out letters of incorporation in Maryland, Ohio, Indiaua, Illinois and other States through which the lines pass.

How the Winter Palace was Blown Up. St. Petersburg, Feb. 28.—It may be unintelligible to many persons abroad how the Nihilists succeeded in doing their work in the very residence of the Imperial family. Probably no other building in St. Petersburg is less safe than the Winter palace. It has always been the refuge for numberless vagabonds, workingmen, friends of servants and others, many without passports, who would not live with impunity anywhere else. An imperial ukase of last April gave full power to Gen. He declared that all parties were agreed that obstruction is a bad thing. He attributed the recent Conservative success in Southwark to Liberal dissensions over local arrangements. The concluding part of his speech was devoted to the Irish affairs. He disclaimed any friendship for Home Rule and said the unity of the empire and authority of Parliament must be maintained independently of every other consideration, but deprecated all angry judgment of his Irish fellow-citizens and said he could not forget the abominable conduct of this country towards Ireland for many generations. THE DOMINION. Developments in the Donnelly Tragedy Developments in the Donnelly Tragedy.

London, Ont., Feb. 28.—At the examination in the Donnelly massacre case, to-day, Wm. Donnelly made some direct and startling revelations. The witness identified James Carroll, John Kennedy, Martin McLaughlin, justice of the peace, and James Ryder, as assasius. He heard some one crying fire at his house; and looking out through his bedroom window saw these men standing before the house. His brother John, appearing at the idoor, was instantly shot. The evidence produced a profound sensation.

MINOR TELEGRAMS. The puddlers connected with the Franconia iron and steel works at Wareham. Mass., have Policeman Peter Higgins of New York was stoned nearly to death Saturday night while trying to make an arrest.

Parliamentary elections in Victoria resulted in the defeat of the government. Telegrams from Lawrence and Lowell say there is no evidence of any intention to strike on the part of the operatives employed in the mills of those places. A special reports that Monseignor Capel has bren suspended from his functions for two years on grave charges.

WOODBURY & MOULTON, Bankers,

Cor. Middle and Exchange Sts., PORTLAND.

This Company is being formed for the purpose of mining and milling silver ores and other minerals in the towns of Acton and Lebanon, in the State of Maine. The mine owned by this Company consists of six hundred lineal feet on the Acton vein, so called. and is located about eight hundred feet southerly from the well-known "Acton Silver Mining Company" property.

Contracts have been made for the required shaft house and blacksmith shop, hoisting engine and bollers, and other required tools for developing the mine, and work is now progressing on the main shaft, which is to be six feet by twelve feet, and is intended to strike the vein at about sixty feet below the surface. Said shaft is to be sunk to the depth of seventy-five feet and then delivered to the Bullion Company with the above buildings and machinery.

In addition to the above the Bullion Company will in the early spring erect a first-class mill upon the ground which will contain the latest appliances known in this country for the concentration of ores.

Under date of January 26, 1880, the

The direction and management of this Company will be placed in the hands of well-known business men and the mine and mill will be worked for the benefit of the stockholders.

Subscription books will close March 31, 1880. Certificates of stock will be issued April 1st, 1880.
